山東海洋科普研學之旅

Shandong Ocean Science Study Tour

2025年7月21日至26日 | 青島與威海 | 高中主題式交流團

截止報名日期：2025年5月15日（四）

參觀國家教育基地 | 實地考察保育地帶 | 參加科研工作坊
探索藍色經濟產業 | 與當地學生共同參與環保義工服務

計劃簡介 Introduction

山東，是中國致力發展海洋事業的沿岸省份，分別發展海洋環境科技、生態保護及修復、海洋經濟。當地設有全國首個「自然資源與生態環境保護跨區域協作機制」，更有「中國海洋大學」為海洋保育發展的教育基地，培養相關人材。

而呼應國家發展藍圖——《「十四五」海洋生態環境保護規劃》及聯合國永續發展目標（SDGs），目標14——「保育和可持續地使用海洋和海洋資源以促進可持續發展」（Life Below Water），本計劃透過六日五夜的主題式交流團，實地考察中國山東（青島與威海），參加工作坊、機構拜訪及交流會等活動，借鑒當地海洋科學與經濟發展，深入了解沿岸城市的相關機遇與挑戰，並以小組匯報的形式提出增加本土海洋保育意識，或推動本港海洋經濟發展的構思。

Shandong, a coastal province in China, is committed to developing its marine sector, focusing on marine environmental technology, ecological protection and restoration, and the marine economy. It features the country's first Cross-Regional Cooperation Mechanism for Natural Resources and Ecological Environment Protection, as well as the Ocean University of China, which serves as a key educational base for cultivating talent in marine conservation.

In alignment with national strategies such as the 14th Five-Year Plan for Marine Ecological and Environmental Protection and the United Nations Sustainable Development Goal (SDG) 14 — 'Life Below Water': Conserve and sustainably use the oceans, seas, and marine resources for sustainable development — this 6-day, 5-night thematic study tour to Shandong (Qingdao and Weihai) will provide participants with hands-on learning experiences through site visits, workshops, institutional visits, and exchange sessions. By exploring local developments in Ocean science and the coastal economy, participants will gain an inclusive understanding of the opportunities and challenges facing coastal cities. The tour will culminate in group presentations proposing strategies to enhance public awareness of marine conservation or to foster the development of Hong Kong's marine economy.

計劃主題 Programme Theme

海洋科學 與 國情研究 Ocean Science and National Studies

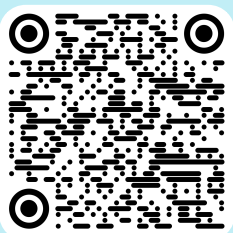

計劃特色 Programme Features

- 參觀國家教育基地，了解綠色升學選項
Visit national education centers to explore more options in green education and career.
- 實地考察保育地帶，參加科研工作坊，親身體驗環境及生態保育活動
Conduct field studies in conservation areas, participate in research workshops, and engage in hands-on environmental and ecological conservation activities.
- 與當地學生共同參與環保義工服務，結識新朋友，促進民情交流
Collaborate with local students in environmental volunteer services, make new friends, and promote cultural exchange.
- 參觀國家科研基地，增加科學知識，拓寬眼界
Tour national research facilities to enhance scientific knowledge and broaden perspectives.
